Project **TECEdrainprofile brushed black (PVD)**

Project No.: **E 147**

Date: 31.03.2021

Distribution list	See E-mail distribution list "Release for distribution" (Distribution, IB, advertising)
Check list	<input checked="" type="checkbox"/> Article in stock <input checked="" type="checkbox"/> PIM data entered <input type="checkbox"/> PIM texts transferred to SAP <input type="checkbox"/> TD information written <input checked="" type="checkbox"/> Cross-plant material status changed to 30 <input checked="" type="checkbox"/> Distribution must set distribution status at release <input type="checkbox"/> Distribution block cancelled

Project Information:

The TECEdrainprofile shower profiles in black brushed (PVD) as well as the display sample for floor installation in the bathroom exhibitions and the spare parts (profile covers) have now been released for distribution and are available from stock. This means that the complete range has been released for distribution.

Note on the information in the TECE price list:

- "expected to be available from June 2021" is thus now obsolete.
- "3 weeks delivery time" is obsolete, the articles are available from stock. This also applies to all other coloured PVD shower profiles.
- There is one profile cover for the profiles from 800 - 1000 mm (675019) and one profile cover for the 1200 mm profile (675020).

The reason for two profile lids is that the 1200 mm profile has to be coated in a different chamber, which may result in slight colour differences to the other profiles. To avoid these colour differences between profile and lid, the spare profile lid is also coated in the chamber of the 1200 mm profiles.
Country of origin: DE
