

YOUR PARTNER FOR SHOWERS!

NIKLES, A SWISS COMPANY GROUP 

since 1982
YOUR PARTNER FOR SHOWERS!

Nikles Group is one of the world's leading shower equipment manufacturer and supplier. Nikles is a Swiss family owned corporation. We manufacture quality products that are sustainable and durable. Our clients all around the globe, such as luxury manufacturers and leading retailers are sourcing hand showers, shower heads, slide bars, shower systems and kitchen sprays from us. Nikles consistently re-invest profits back into research and development resulting in a continuous stream of new products and technologies. We are committed to maintain and to expand our position as a technology partner. Nikles prides itself with products that are trendsetting and state of the art design.

Nikles is a 100% family owned company with worldwide sales organizations and is continuously expanding in manufacturing, technologies, products, and local distribution partners to serve customers worldwide.

NIKLES COMPANY

NIKLES HISTORY

NIKLES COMPANY

HIGHLIGHTS TECHNOLOGIES AND CERTIFICATIONS

Airdrop®

Experience a gentle, uplifting feeling that envelopes the body. Delivering a rejuvenating spray that is soft and gentle on the skin. Airdrop showers operate quietly and save water at the same time. All showers are also available without Airdrop system, except our Pure range.

Auto On/Off

Rainlight / Rainbow lights switch on automatically, when you turn on the water. Lights continue for two minutes after you shut off the NIKLES Rainlight showers. An extra bit of quality time.

Booster Technology

Switch to wellness! Enjoy the powerful massaging shower spray that exhilarates the body and awakens the senses. NIKLES booster technology creates the sensation of a full shower regardless of the water pressure.

Carbon

Carbon fiber, best known from lightweight design & construction, now comes into your shower. Nikles is the first shower manufacturer to use this material in its shower range. Carbon fiber is ultra resistant, durable and easy to clean. The smooth surface prevents fingerprints and residues.

Cascade shower

Experience a truly rejuvenating shower with the Nikles cascade showers. Feel the water purling on your body and relax from the daily stress.

Check Valve

The Nikles check valve prevents water back flow from showers, faucets or shower hoses. These one way directional valves are for more safety.

Push Button

The new Nikles push-button system makes it easy to switch from a soothing soft shower spray to a pulsating massage spray. Enjoy an exhilarating shower at any water pressure.

Click Position System

All NIKLES multifunction showers feature the convenient click mechanism. You feel and hear the click when changing the function of the shower sprays.

Dropless

After shutting off the water in our Dropless system, the remaining

water completely drains from the shower head. This enables the system to avoid bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles.

Easy to clean

Swipe away residues with a flick of your finger.

Flow limiter

Nikles flow limiters are saving water and energy without losing the comfort of a full shower spray. All flow limiters comply with water regulations and each one is tested during manufacturing to assure performance. Nikles flow limiters are ecologically sound. Available from 4lt/min to 16 lt/min.

Hoses

Nikles shower hoses not only transport water from the faucet to the shower, but also include smart technologies such as the possibility to add flow limiters or check valves. The standard G1/2 connection enables easy installations and the swiveled nut provides a longer product life. The Easy-to-Clean technology of the hose surface is an additional advantage. Nikles shower hoses are available in different lengths and in anti-bacterial material complying with German norm DVGW W270.

Infinity

Nikles with its Infinity range has achieved the ideal combination of organic, timeless design and ergonomic forms for ultimate comfort. The range of Infinity products allow you to match the shower to your bathroom.

Light

The Nikles Light cartridge illuminates the shower spray in a ray of soothing colors as soon as you turn on the water. No electrical connection is needed to power Nikles Light because our patented cartridge system uses hydropower energy. The Nikles Light completes your relaxing shower experience.

Mirror Chrome

Our state of the art chrome plating technology produces mirror like surfaces. The ultra smooth surface prevents the buildup of lime and residues on the Nikles shower systems.

Pressure Control Valve

Nikles Pressure Control Valve Technology protects your shower head from critical product failure. Water quality varies locally and often causes clogging of the nozzles due to poor water quality. This causes to an increase of pressure inside of the shower body and can cause critical damages and leakages. The Nikles Pressure Control Valve Technology safely releases water pressure through a central valve and after a thoroughly cleaning of the shower nozzles the shower works normally.

Silk spray

Imagine a spray as soft as silk caressing your skin. With the sensation of a light summer rain, the new NIKLES SILK shower allows you to feel relaxed and rejuvenated. Avoiding limescale buildup in the shower head keeps the system working at maximum efficiency.

Single Lever Mixer

Nikles single lever mixers enable you to adjust the water temperature to your liking. The mixers also feature the Nikles cool touch function for your safety. The internal mixer body is made of brass and the outer body cover is made of ABS to prevent scalding.

Sound

Nikles Sound plays your favorite music and simply connects your phone to your shower head. The revolutionary Nikles Sound cartridge with a high performance loudspeaker and a microphone connects via Bluetooth® to any enabled and paired device including your smartphone. The Nikles turbine generates the power required for operating the device. No need for batteries or removing or recharging by connection to the mains power. Use your shower and Nikles Sound recharges automatically and reliably.

Thermo Insulation

Insulated shower systems prevent scalding and prevent accumulation of residues. This saves you much cleaning time and the use of harsh chemicals.

Thermostat

Nikles thermostatic mixers are made for your comfort. The high quality thermostatic cartridge is preset at an enjoyable and save 38° Celsius. It includes anti - scalding protection for your safety.

HIGHLIGHTS TECHNOLOGIES AND CERTIFICATIONS

Dropleless

The patented Nikles technology "Dropleless" drains the remaining water completely from the shower head within 60 seconds.

Dropleless Clip

Highlights:

- Releases residual water after each use
 - Diminishes deposits build-up
 - Eliminates bacterial contamination
- These highlights allow us to contribute to a healthier world.

Sound

- Open water
- Bluetooth® wireless connection
- Play music
- Set volume
- Answer automatically
- Automatically hang up
- 5 minutes after turning off the water, the system shuts down

Sound Clip

Pressure Control Valve

Nikles Pressure Control Valve prevent critical damages when nozzles are clogged

Pressure Control Valve Clip

Highlights:

- Improved safety installation in hard water situations
- Prevents critical product damages
- Safe release of high pressure

Light

The Nikles Light cartridge illuminates the shower spray in a ray of soothing colors as soon as you turn on the water (hydropower energy).

Light Clip

Sky Duo Silk hand shower: Rain spray

Wall bracket for convenient installation

Pull diverter with easy reach

Optional 45° swivel connection

EASY 3 STEP INSTALLATION

STEP 1

To upgrade your standard shower to a luxurious Nikles shower head and a hand shower without any tile removal, you will first have to simply remove your existing showerhead.

STEP 2

Install the Nikles Kit System 5 Sky without having to make any changes to the in-wall plumbing. The compact system is suitable for any shower.

STEP 3

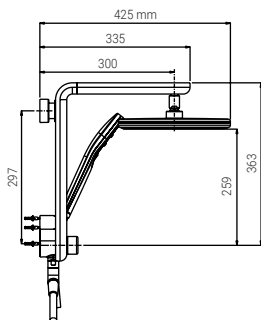

Complete the transformation by installing the already included Nikles Sky Dropless shower head and the Nikles Sky Duo Silk Spray hand shower.

SHOWER HEADS

SHOWER HEADS / DROPLESS

NIKLES DROPLESS

“ After shutting off the water, the remaining water completely drains from the Dropless shower head. This enables the system to avoid bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles. ”

RAIN SPRAY

SHOWER HEADS / PRESSURE CONTROL VALVE

PRESSURE CONTROL VALVE

“ Nikles Pressure Control Valve Technology protects your shower head from critical product failure. Water quality varies locally and often causes clogging of the nozzles due to poor water quality. This causes to an increase of pressure inside of the shower body and can cause critical damages and leakages. The Nikles Pressure Control Valve Technology safely releases water pressure through a central valve and after a thoroughly cleaning of the shower nozzles the shower works normally. ”
