Nikles, a Swiss company Group

Nikles Group is one of the world's leading shower equipment manufacturer and supplier. Nikles is a Swiss family owned corporation. We manufacture quality products that are sustainable and durable.

Our clients all around the globe, such as luxury manufacturers and leading retailers are sourcing hand showers, shower heads, slide bars, shower systems and kitchen sprays from us. Nikles consistently re-invest profits back into research and development resulting in a continuous stream of new products and technologies. We are committed to maintain and to expand our position as a technology partner. Nikles prides itself with products that are trendsetting and state of the art design.

All Nikles products are in compliance with diverse standards in different regions of the world. Our customer base is global with clients from all around the world.

As a designer, creator and manufacturer of shower products it is our core purpose to offer to the consumer the right product with an attractive design, appropriate functionality and superior quality and to contribute to the success of our clients and business partners. Our success is built around a team of people with an extraordinary dedication to their professional standards. We believe in the mutual leverage of our business. Our focus is the creation of products and implementation of strategies to exceed market expectations.

Die **Nikles Gruppe** ist einer der weltweit führenden Hersteller und Zulieferer von Duschausstattungen. Nikles ist ein Schweizer Familienunternehmen.

Wir fertigen hochwertige Produkte, die nachhaltig und langlebig sind. Unsere Kunden aus aller Welt, wie anspruchsvolle Hersteller und führende Einzelhändlern beziehen Handbrausen, Duschköpfe, Gleitschienen, Duschesysteme und Küchenbrausen von uns. Nikles investiert beständig einen grossen Teil des Gewinnes in die eigene Forschung und Entwicklung, damit immer neue Produkte und Technologien auf den Markt kommen. Wir sind bestrebt unsere Position als Technologiepartner zu halten und

auszubauen. Nikles ist stolz einer der Ersten zu sein, der Produkte zur Verfügung stellt die zukunftsweisend sind und dem neuesten Design entsprechen.

Alle Nikles Produkte halten diverse Normen von verschiedenen Regionen und Länder dieser Welt ein. Wir beliefern Kunden in der ganzen Welt.

Als Designer, Entwickler und Hersteller von Duschzubehör, sehen wir es als unsere Kernaufgabe, dem Konsumenten ein Produkt anzubieten, welches hervorsteicht durch sein attraktives Design, adäquate Funktion und erstklassige Qualität. Dadurch leisten wir unseren Beitrag zum Erfolg von unseren Kunden und Geschäftspartnern. Unser Erfolg basiert auf unserem Team, dass mit Leuten besetzt ist, die zu ihren professionellen Standards eine aussergewöhnliche Hingabe zum Beruf vorweisen. Wir glauben an einen beidseitigen Einfluss in unserem Betrieb.

Unser Fokus ist auf die Herstellung von Duschen und auf die Einführung von Strategien um die Markterwartungen zu übertreffen gerichtet.

Le **Groupe Nikles** est une entreprise familiale suisse, faisant partie des principaux fabricants et fournisseurs d'équipements de douche dans le monde. Notre clientèle internationale de fabricants haut de gamme et revendeurs, trouve chez nous une gamme complète de douchettes, têtes de douche, barres et colonnes de douche adaptée à tous les besoins. Nikles consacre une grande part de ses investissements dans la recherche et le développement, introduisant régulièrement de nouvelles technologies lui permettant de maintenir sa position leader dans le domaine de l'innovation. Nikles offre donc constamment de nouveaux produits de haute qualité, au design novateur, avec une garantie de 5 ans. Nos produits répondent aux critères standards les plus divers requis par les différentes régions du monde.

En qualité de concepteur, créateur et fabricant d'articles de douche, notre principal objectif est d'offrir au consommateur un produit performant, au design attrayant, avec des fonctions appropriées et de

haute qualité, contribuant ainsi au succès de nos clients et partenaires. Notre succès est construit autour d'une équipe impliquée et professionnelle.

Il **Gruppo Nikles** è uno dei leader mondiali per la produzione e la fornitura di elementi per l'ambiente doccia. Nikles è un'azienda svizzera a conduzione familiare in grado di offrire prodotti di qualità che sono allo stesso tempo eco-sostenibili e progettati per durare nel tempo. I nostri clienti, sparsi in tutto il mondo, comprendono i produttori di fascia alta del settore e i maggiori rivenditori, i quali si rivolgono a noi per la fornitura di docce, soffioni, saliscendi, sistemi doccia e docce da cucina. Nikles reinveste gran parte dei propri profitti nel campo della ricerca e dello sviluppo, dimostrandosi all'avanguardia e volgendo il suo impegno ad incrementare la posizione di partner tecnologico, garantendo così un flusso continuo di prodotti anche dal design innovativo.

Tutti i prodotti Nikles sono conformi ai differenti standard in vigore nei diversi Paesi, cosa che rende possibile avere clienti in tutto il mondo.

In quanto designer, creatori e produttori di elementi per la doccia, il nostro scopo principale è quello di offrire al consumatore il prodotto giusto, dal design accattivante, di qualità superiore e dotato della adeguata funzionalità, in modo da poter contribuire al successo dei nostri clienti e partner commerciali. Il nostro successo è costruito attorno ad un gruppo di persone che mostrano una dedizione straordinaria alla loro professione e crediamo che nella nostra attività sia importante il reciproco supporto. Il nostro scopo è creare prodotti e implementare strategie che vadano oltre le aspettative del mercato.

Nikles Technologies

Airdrop®

Experience a gentle, uplifting feeling that envelopes the body. Delivering a rejuvenating spray that is soft and gentle on the skin. Airdrop showers operate quietly and save water at the same time. All showers are also available without Airdrop system, except our Pure range.

Auto On/Off

Rainlight / Rainbow lights switch on automatically, when you turn on the water. Lights continue for two minutes after you shut off the NIKLES Rainlight showers. An extra bit of quality time.

Booster Technology

Switch to wellness! Enjoy the powerful massaging shower spray that exhilarates the body and awakens the senses. NIKLES booster technology creates the sensation of a full shower regardless of the water pressure.

Carbon

Carbon fiber, best known from lightweight design & construction, now comes into your shower. Nikles is the first shower manufacturer to use this material in its shower range. Carbon fiber is ultra resistant, durable and easy to clean. The smooth surface prevents fingerprints and residues.

Cascade shower

Experience a truly rejuvenating shower with the Nikles cascade showers. Feel the water purling on your body and relax from the daily stress.

Check Valve

The Nikles check valve prevents water back flow from showers, faucets or shower hoses. These one way directional valves are for more safety.

Push Button

The new Nikles push-button system makes it easy to switch from a soothing soft shower spray to a pulsating massage spray. Enjoy an exhilarating shower at any water pressure.

Click Position System

All NIKLES multifunction showers feature the convenient click mechanism. You feel and hear the click when changing the function of the shower sprays.

Dropleless

After shutting off the water in our Dropleless system, the remaining

water completely drains from the shower head. This enables the system to avoid bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles.

Easy to clean

Swipe away residues with a flick of your finger.

Flow limiter

Nikles flow limiters are saving water and energy without losing the comfort of a full shower spray. All flow limiters comply with water regulations and each one is tested during manufacturing to assure performance. Nikles flow limiters are ecologically sound. Available from 4lt/min to 16 lt/min.

Hoses

Nikles shower hoses not only transport water from the faucet to the shower, but also include smart technologies such as the possibility to add flow limiters or check valves. The standard G1/2 connection enables easy installations and the swiveled nut provides a longer product life. The Easy-to-Clean technology of the hose surface is an additional advantage. Nikles shower hoses are available in different lengths and in anti-bacterial material complying with German norm DVGW W270.

Infinity

Nikles with its Infinity range has achieved the ideal combination of organic, timeless design and ergonomic forms for ultimate comfort. The range of Infinity products allow you to match the shower to your bathroom.

Light

The Nikles Light cartridge illuminates the shower spray in a ray of soothing colors as soon as you turn on the water. No electrical connection is needed to power Nikles Light because our patented cartridge system uses hydropower energy. The Nikles Light completes your relaxing shower experience.

Mirror Chrome

Our state of the art chrome plating technology produces mirror like surfaces. The ultra smooth surface prevents the buildup of lime and residues on the Nikles shower systems.

Pressure Control Valve

Nikles Pressure Control Valve Technology protects your shower head from critical product failure. Water quality varies locally and often causes clogging of the nozzles due to poor water quality. This causes to an increase of pressure inside of the shower body and can cause critical damages and leakages. The Nikles Pressure Control Valve Technology safely releases water pressure through a central valve and after a thoroughly cleaning of the shower nozzles the shower works normally.

Silk spray

Imagine a spray as soft as silk caressing your skin. With the sensation of a light summer rain, the new NIKLES SILK shower allows you to feel relaxed and rejuvenated. Avoiding limescale buildup in the shower head keeps the system working at maximum efficiency.

Single Lever Mixer

Nikles single lever mixers enable you to adjust the water temperature to your liking. The mixers also feature the Nikles cool touch function for your safety. The internal mixer body is made of brass and the outer body cover is made of ABS to prevent scalding.

Sound

Nikles Sound plays your favorite music and simply connects your phone to your shower head. The revolutionary Nikles Sound cartridge with a high performance loudspeaker and a microphone connects via Bluetooth® to any enabled and paired device including your smartphone. The Nikles turbine generates the power required for operating the device. No need for batteries or removing or recharging by connection to the mains power. Use your shower and Nikles Sound recharges automatically and reliably.

Thermo Insulation

Insulated shower systems prevent scalding and prevent accumulation of residues. This saves you much cleaning time and the use of harsh chemicals.

Thermostat

Nikles thermostatic mixers are made for your comfort. The high quality thermostatic cartridge is preset at an enjoyable and save 38° Celsius. It includes anti - scalding protection for your safety.

Highlights technologies and Certifications

Dropless

The patented Nikles technology "Dropless" drains the remaining water completely from the shower head within 60 seconds.

Dropless
Clip

Highlights:

- Releases residual water after each use
- Diminishes deposits build-up
- Eliminates bacterial contamination

These highlights allow us to contribute to a healthier world.

Sound

- Open water
- Bluetooth® wireless connection
- Play music
- Set volume
- Answer automatically
- Automatically hang up
- 5 minutes after turning off the water, the system shuts down

“

As the Carbon diamonds are used for jewellery, the fiber is used for aircrafts, sports equipments, car industry and for the Nikles Carbon Showers.

”

Nikles Carbon

The element of Carbon is found in Nature in three different forms Diamond-Graphite Buckminsterfullerene. Each of its form has its own field of use. As the Carbon diamonds are used for jewellery, the fiber is used for aircrafts, sports equipments, car industry and for the Nikles Carbon Showers. The fiber is composed of atoms which are bonding together. They form a honeycomb-like battern, which makes the material very strong, light and durable.

Why Carbon?

During a stroll in the city of Basel, Switzerland our president Mr. Gerhard Nikles remarked the variety of the Carbon Fiber. The passing bicycles, the jewelry in all the different shopping-windows and also in the cars. All of them uses the material in a different way for a different purpose. That's when the idea "hit" him. "Why not use the Carbon fibers for our showers?!" Even before he was at home all of his team have been informed of his idea. The research and development of a Nikles Carbon range has begun.

The Life of Carbon Sustainability

Against the common consideration Carbon can and is recycled. Although the correct word is Down-cycled. The fiber will be heated so the material is sorted in its different components. It will re-used as "Woolen-Carbon" which is mainly used for inner car parts.

Or as Carbon resin, which mixed with different materials, for example glass fiber, can be injected in molds for "smaller daily parts". "The life line in the fields of usage" is fist in the aerospace applications, then automobile applications then sporting goods and at the end for consumer electronics.

The way of recycling Carbon is in a constant development, as this material is getting more important in the daily life for all of us.

NIKLES THERMOSTATIC

Nikles introduces **Nikles Therm System** - an integrated thermostatic mixer with intelligent technology at its core. The easy to use ergonomic control knobs enables you to switch from shower head to a handshower setting or regulate the water temperature with a turn. Nikles Therm System is designed with safety in mind. A thermostatic valve controls the temperature accurately and **maintenance water temperature at maximum of 38°C** - unless you manually

override this by pushing a safety button. A feel cool double shell system always keeps the outer shell of the thermostat at a comfortable temperature to avoid the risk of scalding. The Nikles Therm System is aesthetically pleasing and offers an easy way to integrate a shower head and handshower into your bathroom. In addition to advanced technology, the Nikles Therm System features a contemporary design and blends perfectly.

EASY SELECTOR

Enjoy the comfort of one handle to open, close and select your favorite spray

FEEL COOL

The Nikles thermostat mixer always stays cool for more comfort and safety in your bathroom

THERMOSTAT MIXER

Enjoy a well-tempered relaxing shower with the Nikles thermostat mixer.

NIKLES SINGLE LEVER

Nikles introduces the **Single Lever Shower system** - an integrated single lever mixer with a ceramic disc cartridge. The ergonomic control handle enables you to regulate your suitable water temperature.

Nikles Single Lever Mixers are designed with safety in mind, featuring a brass body with ABS chrome-plated double outer shell a perfect combination of contemporary design safety. Besides technical advantages, Nikles single lever shower systems make an aesthetic statement.

With the intelligent built-in 3-way diverter, you can choose to use either the shower head, the hand shower or both together in a mix position.

NIKLES SHOWER SYSTEM

The **Nikles shower systems** are characterized by their timeless elegance. Consistent design, clear and pure lines combined with an easy-to-use 3-way-diverter, allow you the pleasure to use hand shower and shower head at the same time and thus to reach

the climax of a perfect shower pleasure. The Nikles shower system also feature scalding protection by the isolated water flow inside the shower system and scalding by touching the surface is prevented.

KIT SYSTEM 5 SKY

OLD SYSTEM

- Shower head only
- Renovation needed to add a hand shower
- Not enough space for conventional system

NEW KIT SYSTEM 5 SKY

- Complete system with shower head and multifunction hand shower
- Compact, modern and beautiful design
- Plug and play: no renovation needed

Pressure control valve and Dropless shower head

Sky Duo Silk hand shower: Rain spray

Wall bracket for convenient installation

Pull diverter with easy reach

Optional 45° swivel connection

EASY 3 STEP INSTALLATION

STEP 1

To upgrade your standard shower to a luxurious Nikles shower head and a hand shower without any tile removal, you will first have to simply remove your existing showerhead.

STEP 2

Install the Nikles Kit System 5 Sky without having to make any changes to the in-wall plumbing. The compact system is suitable for any shower.

STEP 3

Complete the transformation by installing the already included Nikles Sky Dropless shower head and the Nikles Sky Duo Silk Spray hand shower.

Shower heads

Shower heads // Droplless

NIKLES DROPLESS

“

After shutting off the water, the remaining water completely drains from the Droplless shower head. This enables the system to avoid bacteria build up within the shower head. The quick removal of all remaining water reduces the possibility of limescale buildup inside the shower head and nozzles.

”

PRESSURE CONTROL VALVE

“ Nikles Pressure Control Valve Technology protects your shower head from critical product failure. Water quality varies locally and often causes clogging of the nozzles due to poor water quality. This causes to an increase of pressure inside of the shower body and can cause critical damages and leakages. The Nikles Pressure Control Valve Technology safely releases water pressure through a central valve and after a thoroughly cleaning of the shower nozzles the shower works normally. ”

LUCE

“

The story behind the shower head Luce is simply and amazing at the same time. During a walk in the streets of a small Italian village, a ball shaped lamp post has set the inspiration. It was a special moment, the light and atmosphere has been unique.

So why don't do a unique shower?

The idea of a ball shaped and illuminated shower has been born and the process of designing has started. The outcome of this walk is an amazing shower. One which is a perfect mix of a unique design, pleasant water flow and soothing light.

Luce, the shower head with the Italian flair for your bath.

Flow limiters

FLOW LIMITERS

Nikles flow limiters are saving water and energy without losing the comfort of a full shower spray. All flow limiters comply with water regulations and each one is tested during manufacturing to assure performance. Nikles flow limiters are ecologically sound. Available from 4 lt/min to 16 lt/min and from 1.5 GPM to 2.5 GPM.

FLOW LIMITERS Ø 15 and 12,5 mm

Application: Shower head Hand shower

Airdrop® TECHNOLOGY

Experience a gentle, uplifting feeling that envelops the body. Delivering a rejuvenating spray that is soft and gentle on the skin. Airdrop showers operate quietly and save water at the same time. All showers are also available without Airdrop system, except our Pure range.

Airdrop valve Ø 15 mm

Application:  Hand showers

Airdrop valve with flow limiter Ø 15 mm

Application:  Hand showers

Airdrop valve Ø 15 mm

Application:  Shower heads

Airdrop valve with flow limiter Ø 15 mm

Application:  Shower heads

Warranty

1. Nikles provides the following warranty for its products:
2. Duration of the warranty: The warranty extends to 5 years starting from date of purchase: If in this period the product should fail due to a manufacturing error or incorrect assembly, it will be repaired or exchanged free of charge. Nikles reserved the right to analyse the faulty part prior to any exchange.
3. Excluded from the warranty is damage resulting from incorrect handling, disassembly or local water circumstances. Also Nikles will reject claims due to:
 - 3.1. Inappropriate cleaning methods, like boiling water, corrosive or aggressive chemicals or chemicals that contain softeners.
 - 3.2. All claims resulting from the disassembly of the shower.
 - 3.3. Claims resulting from the use in areas with excessively dirty or extremely hard water or maritime conditions or from areas with high pressures starting from 5 bar (500 kpa) before the tap
 - 3.4. Incorrect handling (e.g. enforcing a spray pattern), neglect, inappropriate installation or accidents (e.g. drop)
 - 3.5. Nikles does not accept any cost from third parties in particular no costs from the replacement / installation of products.

The built in flow regulator must not be taken out. In case this has been done, the warranty will be void.

Operating pressure:

1-5 bar / (100 - 500kpa) / (14.504psi - 72.519psi)

Operating temperature:

42°C / 107.6°F

Maximum pressure:

Max. 5 bar / (500kpa) / (72.519psi)

Maximum Temperature:

Max. 60°C / 140°F
